About Me

I am a passionate programmer with over 5 years of experience in Python and JavaScript development. Throughout my career, I have worked on numerous projects, a selection of which can be found on my GitHub profile. Apart from software development, I also indulge in hobbyist game development.

Experience

Pokemon Discord Bot

pokemonbot.com

Creator, Lead Developer

2019-2022

- Developed a Discord bot using Python serving **400k users** and **130k servers**.
- Initially utilized **PostgreSQL** for data storage, later migrated to **MongoDB** due to evolving data structures.
- Implemented **clustering/sharding** for scalability.
- Utilized **Redis** for efficient **caching/queuing**.
- Maintained the codebase in adherence to industry standards (proprietary).

Projects

Shortcut

github Wiper-R/shortcut

Designer, Developer

2023

- Hosted live on “Vercel” ([click here](#)).
- Implemented features such as:
 - **Custom Backhalf**
 - **QR Codes**
 - **Overview**
 - **Account Management** and **Link Management**
- Ensured **maintainability** through proper project structuring using **git**.
- Utilized **MongoDB** for data storage.
- Employed **Zod** for input validation on both the **Server** and **Client** sides.

My Voice Discord

github Wiper-R/my-voice-discord

Developer

2021

- Developed a Discord bot for voice management.
- Employed **PostgreSQL** with proper **Migration** tables.
- Organized logic, files, and classes based on their respective functions and purposes.
